About This Game

Stuck in a remote, abandoned town, you must lead five survivors with conflicting motivations, fragile relationships and fiery prejudices to safety from the roving undead. A sophisticated engine generates new survivors, towns and content so every adventure is a different experience, and you can use built-in editors to add yourself and others to the game.

Features

- Deal with the volatile relationships of your survivors by strategically assigning them to tasks, siding with them on difficult decisions or seeding rumours about their past
- The undead aren't the only threat - negotiate, bargain, trade with or fight merciless lynch mobs, zombie hunters and bitten survivors
- Experience a fresh story each time you play as the procedural engine crafts new survivors, towns and content

-
- Built-in editors make it easy to add yourself and your friends to the game. Create your own survival horror story in your hometown
 - Unique diary interface records each action, choice and disaster. Save your heroic story and share it with others

ZAFEHOUSE: DIARIES

House, 4 Tanglewood Court

Melanie is infected. We could kill her now, but this would have a dramatic effect on Tyler and Courtney.

If we let her live, she'll drain our medical supplies - not to mention she could turn on us.

Courtney thinks she can stop the infection by amputating Melanie's right leg with a circular saw.

We arrived with a few weapons, some tools, some food and a few medical supplies.

The five of us are wary of each other. Tyler isn't adjusting well to the group, but Vincent might be able to hold everyone together.

We met someone at the outskirts of town. He said he was part of scavenger group looking for some spare parts, but they were attacked and he was the only one who survived.

He said there might be a vehicle in town that we could probably patch up if we had the right parts.

But there's a catch. The outskirts are infested and getting more dangerous by the day. We'll need to find a map before we even think about leaving.

The game mechanics feels wrong, in-game UI is horrible, game not registering that some tasks\missions are unable to be pursued any further, limitation of actions available....no, it is NOT enjoyable at all!. I tried to like the game, didn't work.

The only interesting thing is the diary that lists everything that has happened to your group. That's about it.

Shallow game, silly survivor interactions, too hard.

You'll have to die and restart over and over until you figure out a way to beat the game. But by that time you'll be too bored.
